A. Preparation

Before you come to ITSC ...

1. *Booking*

ITSC operates a booking system for the Optical Mark Reader so that users will not be inconvenienced by having to wait and indeed they will not be interrupted by others during the operation.

To make a booking, please reserve via below Booking System: -

<http://itscapps.ust.hk/facility/book>

Please note that the scanner is available during [ITSC Service Desk opening hours](#):

2. *Prepare model answer*

You need to prepare a model answer form. Mark on the form the correct answers for all the questions in the test. Please note that each question should have only **ONE** correct answer.

If you have more than ONE answer for the question (OR condition), please refer Section K. If you have answers in AND condition, please refer Section L.

3. *Prepare test forms*

Make sure that all forms are properly completed by respondents and are facing in the same direction.

4. *Bring storage media*

Bring along flash memory key to store your data files or you may send the files via email attachment.

B. Scanner Corner

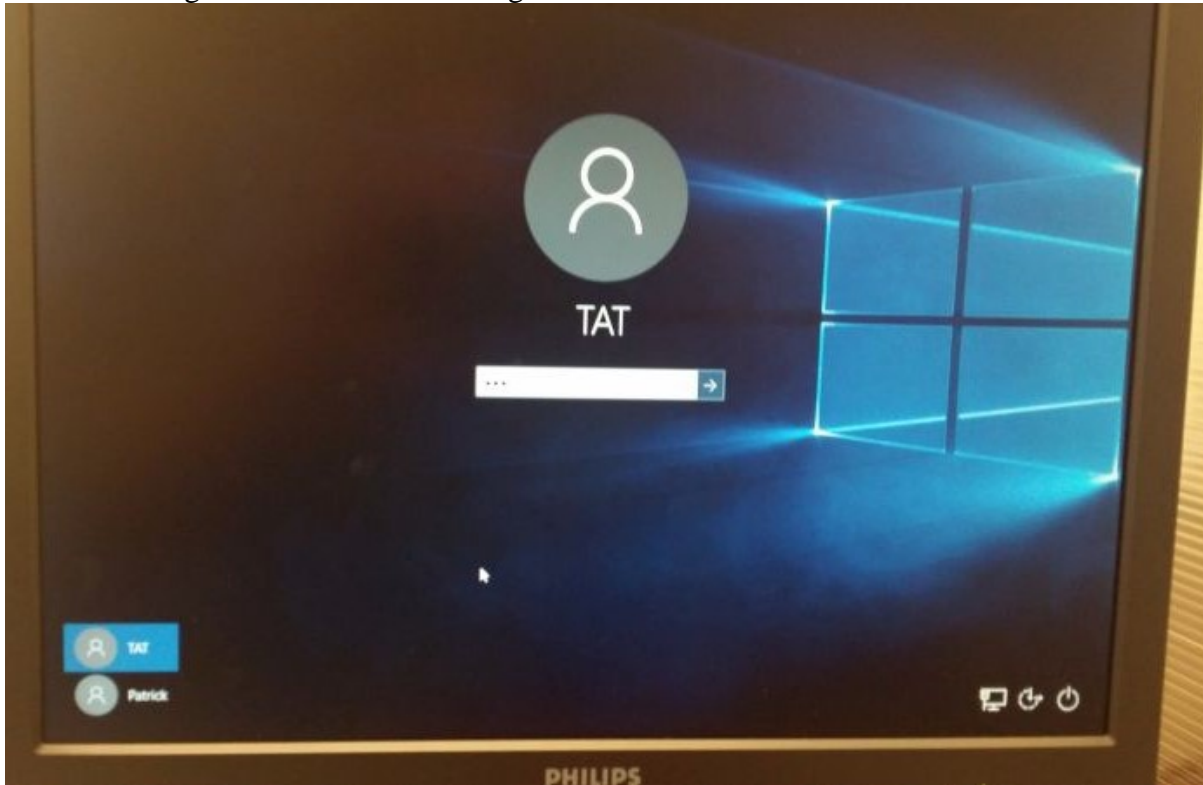

C. Power on Scan Device & Launch TestAnyTime Program

1. Power on the scan device if it has been shut down.

2. Logon PC with the following information:

Username : **TAT**
Password : **TAT**

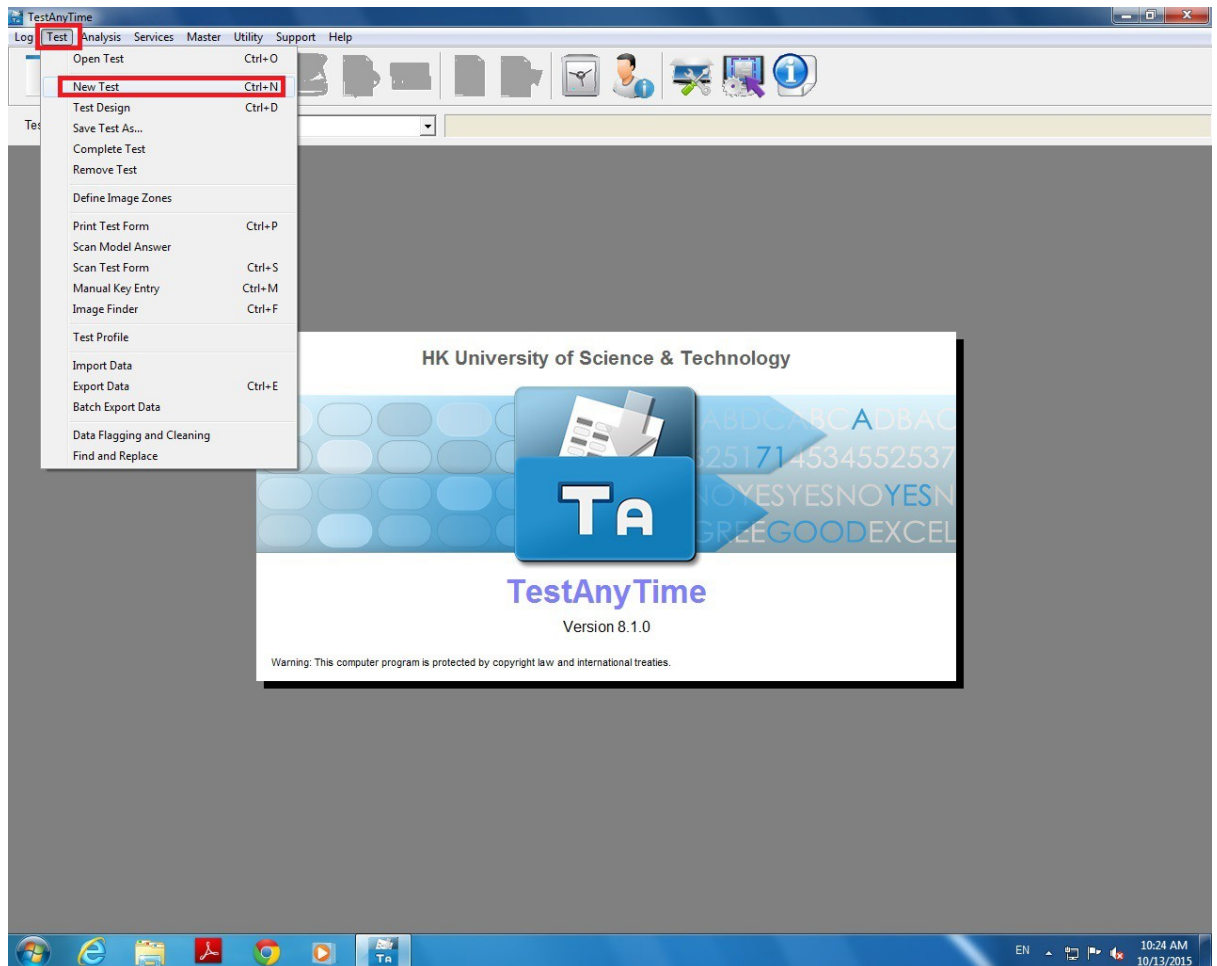

3. Double click **TestAnyTime** icon from desktop

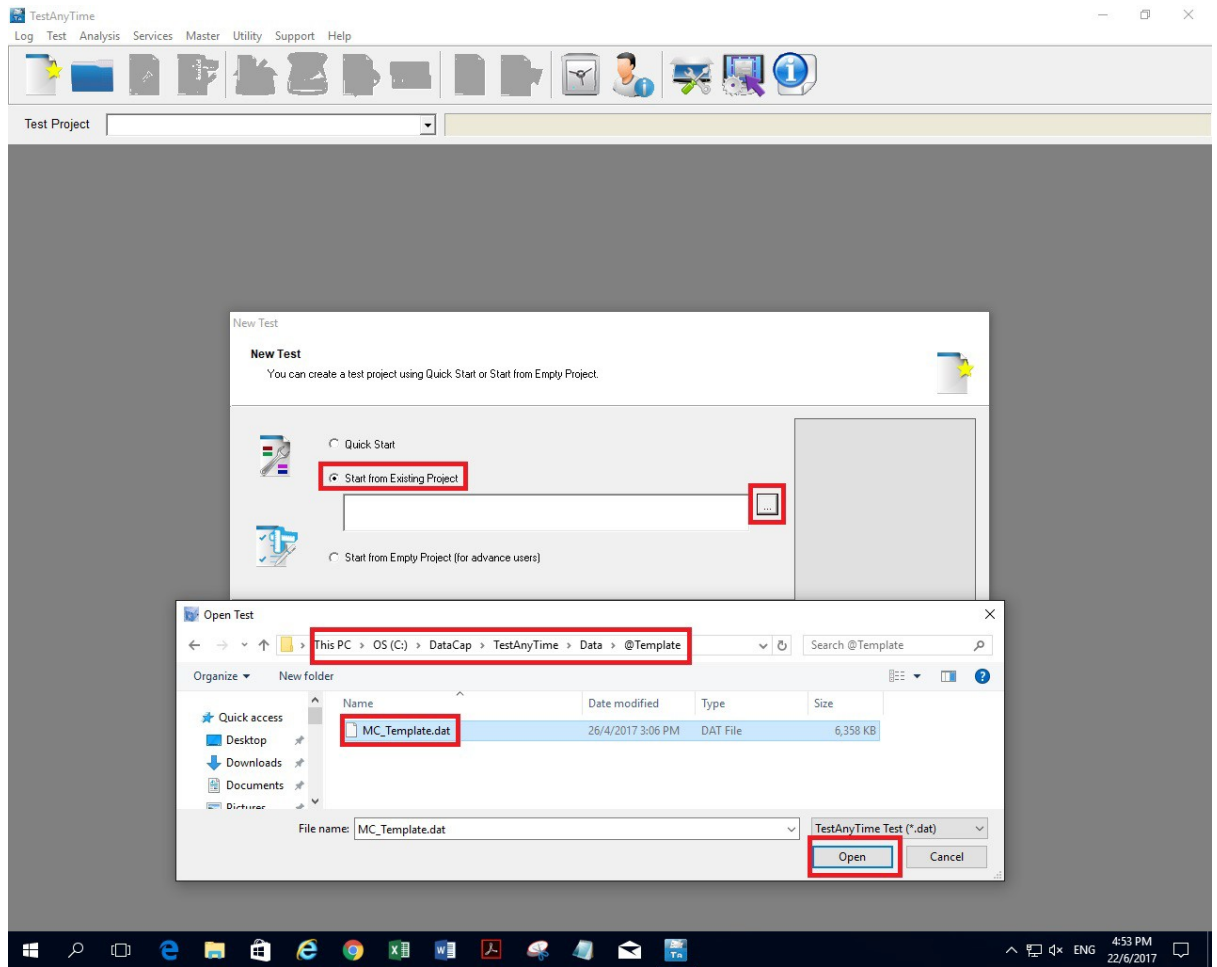

The TestAnyTime main page will be displayed (A backup process will be run if this is the first start of the day, simply click 'Yes' to continue)

D. Create Your Own Project / Working Directory

From Test pull down menu and select “New Test”

Select MC1 Form Template

1. Select “Start from Existing Project” and click the right box.
2. Open @Template folder and select MC_Template.dat, click Open and then Start.
(The full path is C:\DataCap\TestAnyTime\Data\@Template\MC_Template.dat)

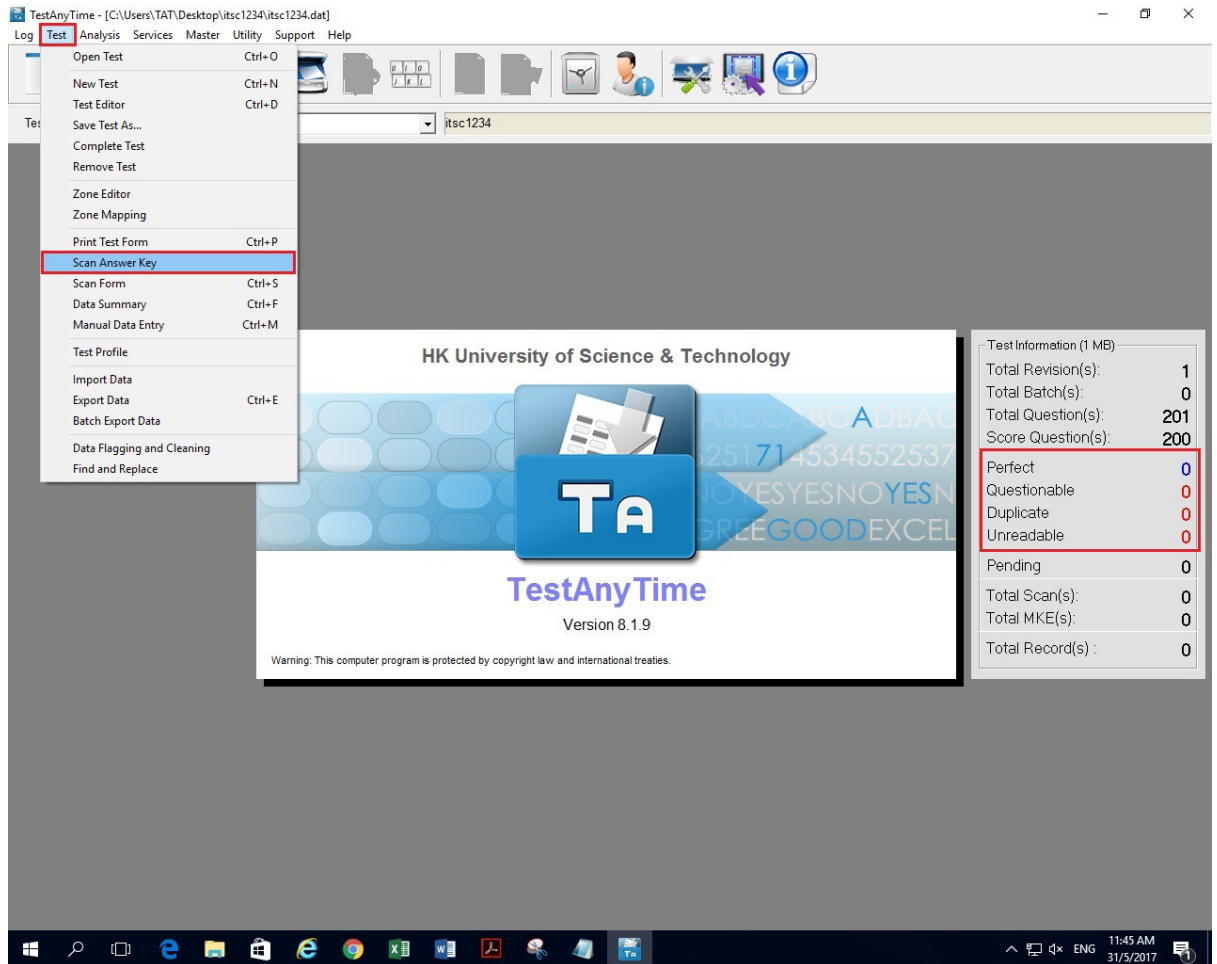

3. Save your own working directory by creating a folder (advisable on Desktop) e.g. ITSC1234 and then save the file name (itsc1234) in the folder.

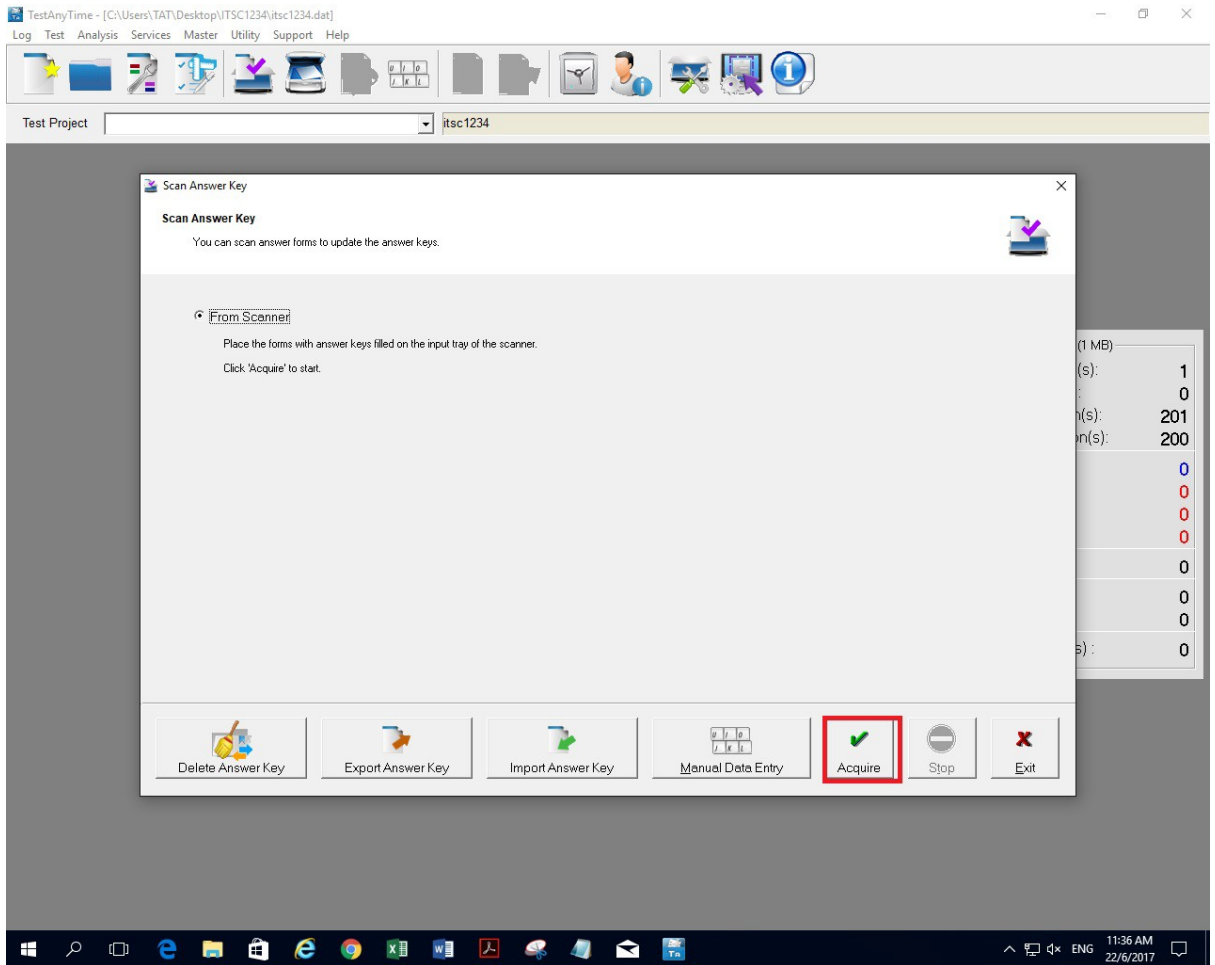

4. Click "Save"

E. Scan Answer Key

1. From **Test** pull-down menu, select and click **Scan Answer Key** option. Make sure the opened template is clean without any data being stored. (Please approach our Service Desk colleague if the template is incorrect)

2. Place **ONLY** the model answer form onto the document scanner, facing up with head goes in first.
3. Click '**Acquire**' button.

4. The scanned model answers are then displayed. **Double check** on each scanned model answer.

TestAnyTime

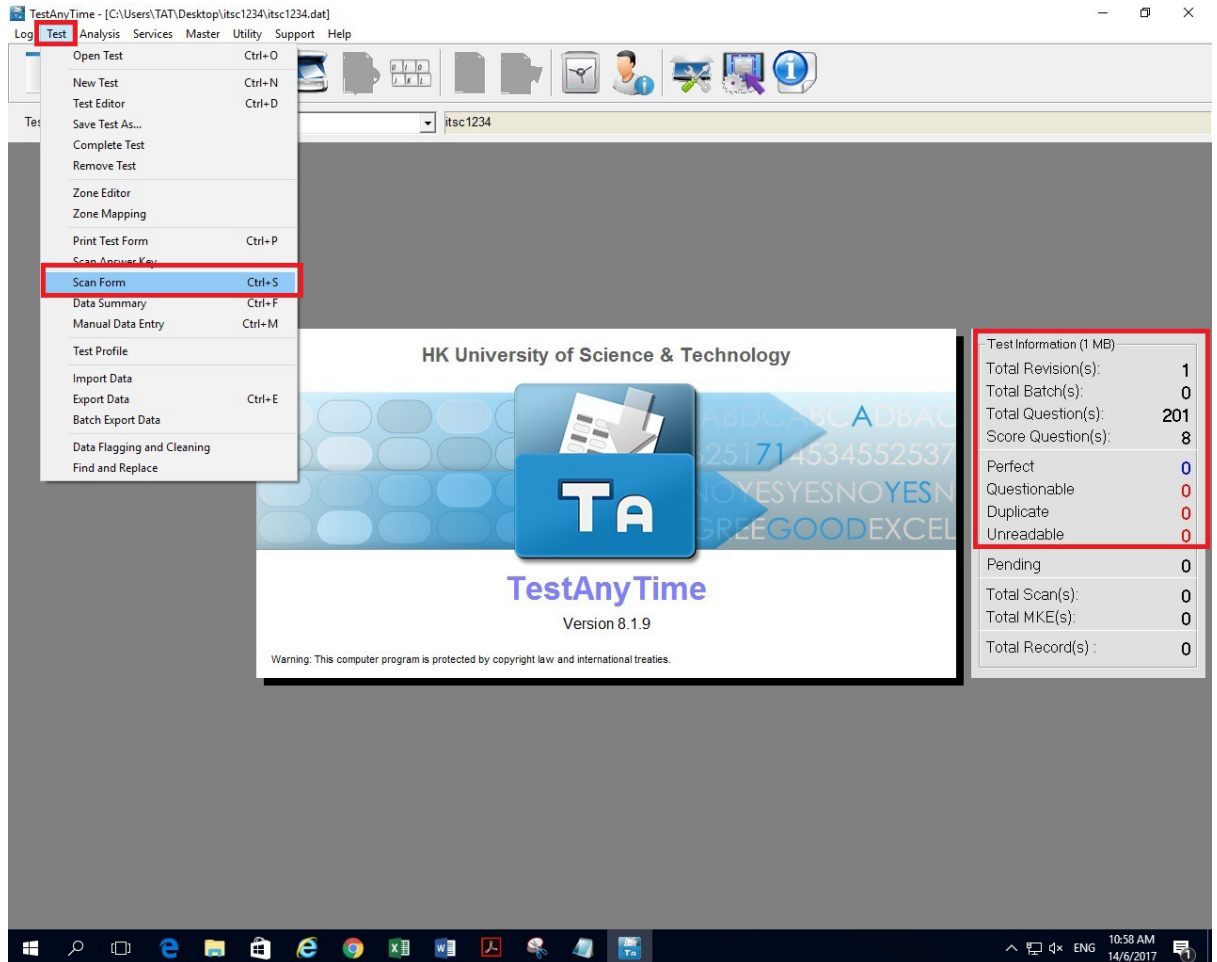

Answer Keys are saved.

3:34 PM
31/5/2017

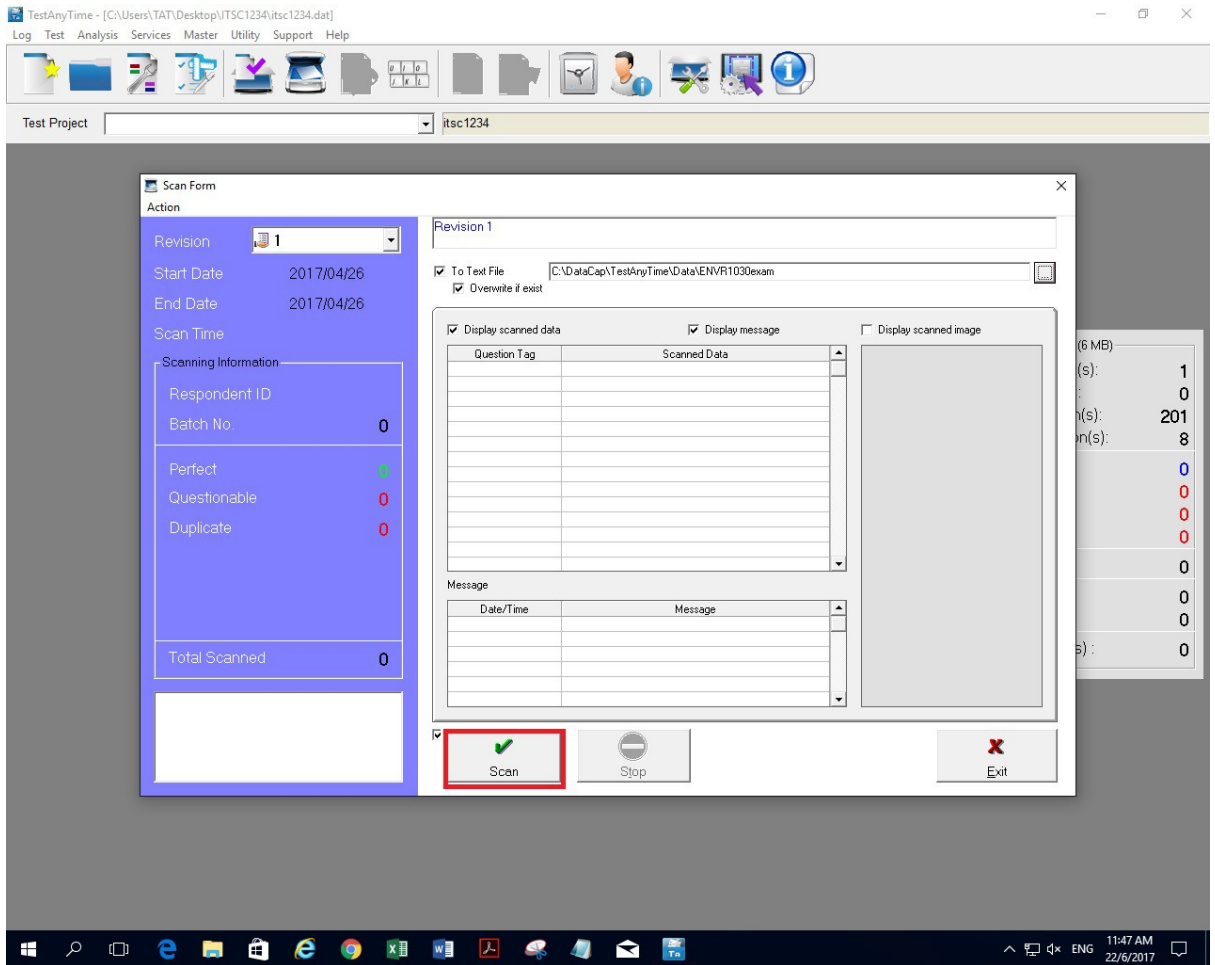

5. Click **Save** to save the model answer and OK to exit to main menu.

F. Scan Test Forms

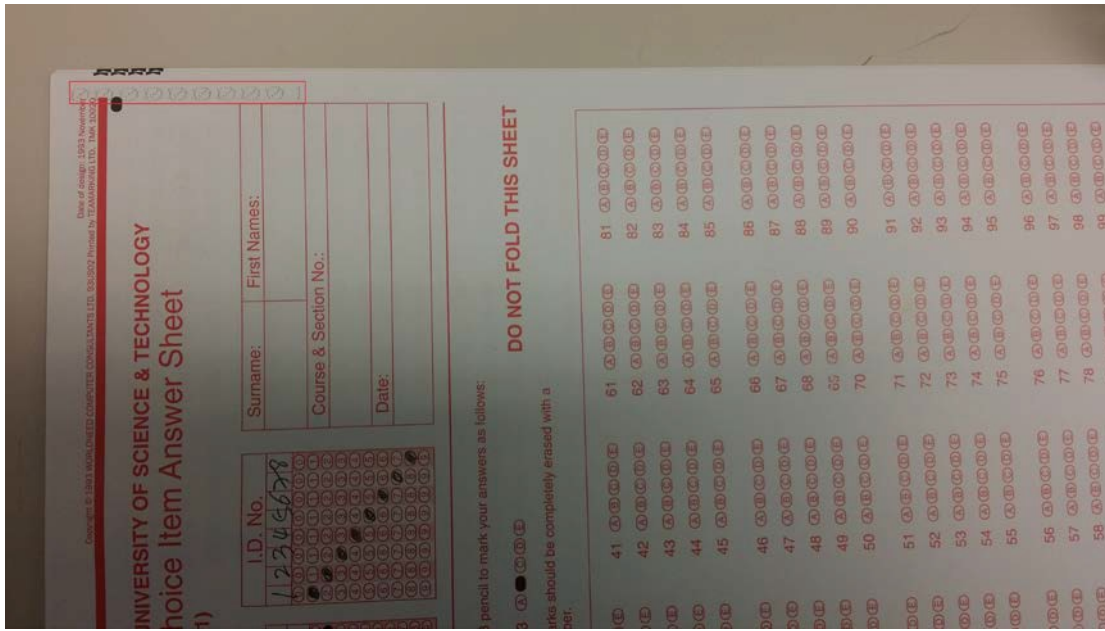

1. From **Test** pull-down menu, select and click **Scan Form** option or click on scan test form icon.

2. Place the test forms onto the document scanner, facing up with head go in first
3. Click '**Scan**' to start scanning process.

4. After all forms are scanned, click **Stop** and then **Exit** to return.

Responded ID will be printed on the scanned form

The **questionable** forms will be sorted on the upper tray while accepted sheets will be allocated on the lower one.

G. Check for Questionable Answers (Auto Load Record)

In order to make the scanning process smooth, the system will continue the scanning when questionable answers are detected. At the end of the scanning process, users are recommended to check for questionable answers and make adjustments where necessary.

Items classified as questionable include:

- Incomplete Student ID Number
- Multiple-answered question
- Any answer that the system could not detect clearly

EXAMPLE: (Questionable – Multiple Answer)

The screenshot displays the 'Manual Key Entry' application window. The title bar reads 'Manual Key Entry' and the menu bar includes 'Action' and 'Text Convert'. The interface features a toolbar with various icons, a 'Profile' dropdown menu set to '-- Select --', and a 'Modify' button. Below the toolbar, there are fields for 'Revision' (set to 1) and 'Respondent ID' (0000000003), with an 'Auto Load Record' button and a 'Batch No.' field (00001). A red error message is visible: 'Errors are found: S002Q002_MC_2 Questionable (Multiple - Can only choose one choice)'. The main area is split into two panes. The left pane is a large empty gray box. The right pane, titled 'Section 2' and '2. MC_2', shows a multiple-choice question with five options: 1. A, 2. B, 3. C, 4. D, and 5. E. Each option has a radio button. Below the question, there is a large empty gray box. At the bottom, a data table shows question and answer details for a range of questions. The table has columns for 'Question' and 'Answer'. The row for S002Q002 shows '2-B' as the answer, with a yellow star icon and the text '<Multiple>' next to it, indicating it is the questionable entry. Navigation buttons for 'P. Record', 'Previous', 'Next', and 'N. Record' are present. The Windows taskbar at the bottom shows the system tray with the date and time: 10:48 AM, 10/13/2015.

Question	Answer
S001Q001	33333333
S002Q001	2-B
S002Q002	2-B * <Multiple>
S002Q003	2-B
S002Q004	4-D
S002Q005	4-D
S002Q006	
S002Q007	
S002Q008	
S002Q009	
S002Q010	
S002Q011	
S002Q012	
S002Q013	

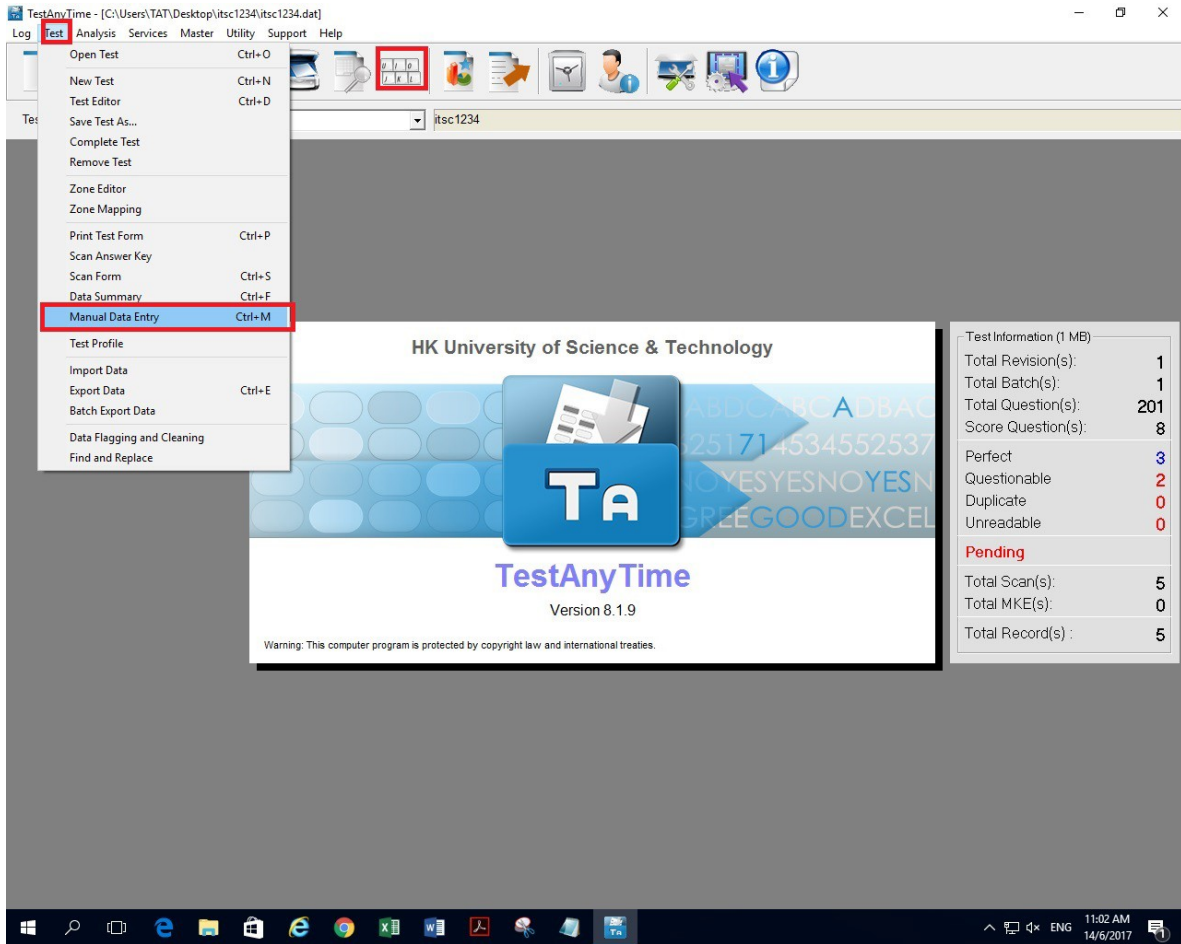

EXAMPLE: (Questionable –No ID)

The screenshot shows a software window titled "Manual Key Entry" with a menu bar containing "Action" and "Text Convert". Below the menu bar is a toolbar with various icons. The main interface includes a header area with "Revision" (set to 1), "Respondent ID" (0000000005), and "Batch No." (00001). A red error message is displayed: "Errors are found | S001Q001. IDNo Questionable (question-level rule: LENGTH = 8 AND NOT CONTAINS AND NOT CONTAINS *)". The central workspace is divided into two panes: a large empty grey area on the left and a right pane titled "Section 1" with a sub-header "Score [Factor=1, Wrong=0, Missing=0, Multiple=0]" and a list item "1. IDNo". At the bottom, a table displays question and answer data:

Question	S001Q001	S002Q001	S002Q002	S002Q003	S002Q004	S002Q005	S002Q006	S002Q007	S002Q008	S002Q009	S002Q010	S002Q011	S002Q012	S002Q013
Answer		3-C	2-B	2-B	4-D	5-E								

Navigation buttons include "P. Record", "Previous", "Next", and "N. Record". The status bar at the bottom shows "F01_IDNo: Maximum Length = 8" and "Question Mode". The Windows taskbar at the very bottom displays the time as 10:49 AM on 10/13/2015.

1. From **Test** pull-down menu, select and click **Manual Data Entry** option or click the Manual Key Entry icon

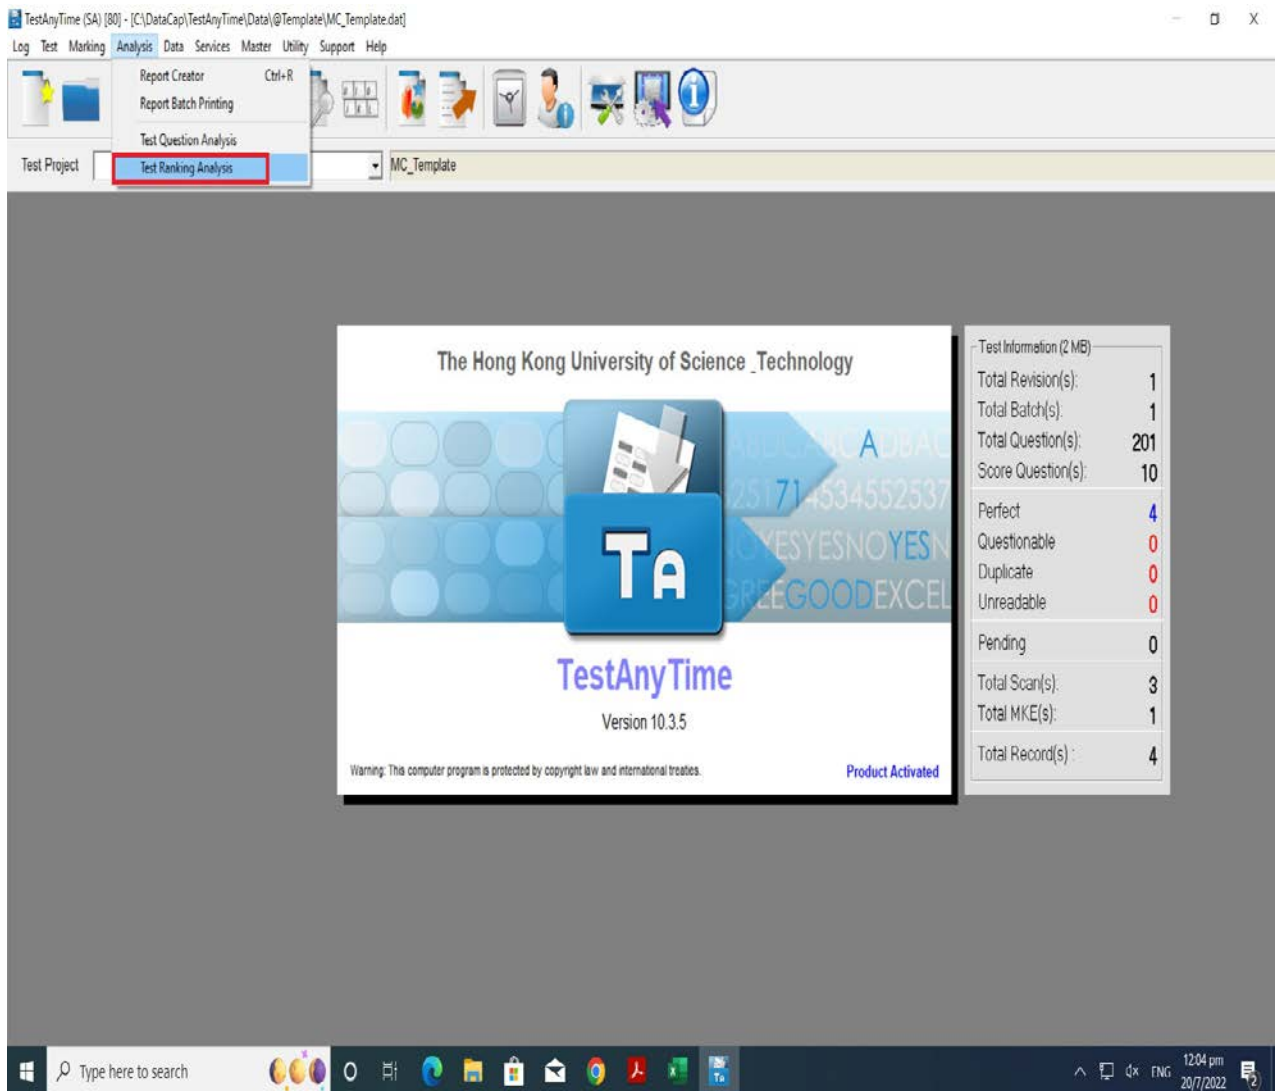

2. Click Auto Load Record and take appropriate correction to the question. Click “Next”
3. Then proceed to the next question or to go to the next record. Click “Yes”.
4. Until “This is the last record” Windows popped up.

5. Click OK and quit Manual Key Entry dialog box and go back to the Main Menu.

H. Test Ranking Analysis Report

1. From **Analysis** pull-down menu, select **Test Ranking Analysis** option.

2. Click **Test Ranking Analysis** to generate report.

itsc1234 (Revision 1)

Test Ranking Analysis - All Respondents (Sorted By Respondent ID)

IDNo	Mark	Result	Ranking	Correct Answer	Wrong Answer	Unanswered Question	Status
20151234	7.00		1	7	1	0	(Highest)
20143366	3.00		5	3	5	0	(Lowest)
20161111	5.00		3	5	3	0	
20180011	6.00		2	6	2	0	
20144012	4.00		4	4	4	0	

No. of candidate attended : 5
 Passing mark : N/A
 Highest mark : 7.0
 Lowest mark : 3.0
 Average mark : 5.0

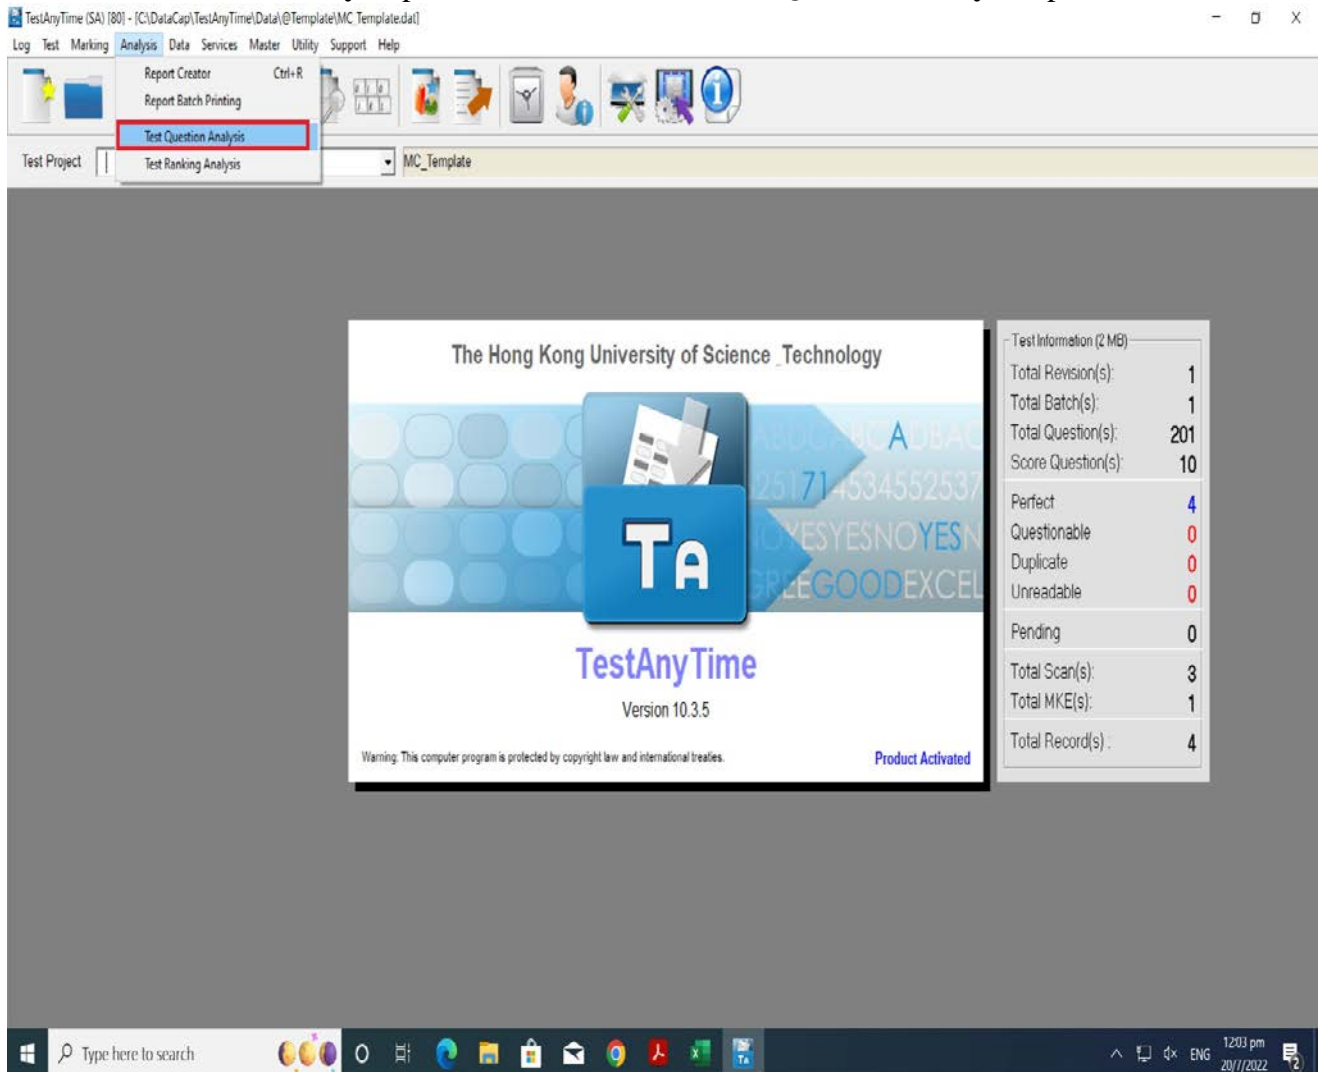

3. Click **Export** button to export the report in your favorite format. E.g. Excel, PDF etc.. then Click OK.

4. Click **OK** to accept the default settings/layouts in Excel Format Options.
5. Save the exported file to your working directory.
6. Quit the report preview and go back to the main display menu.

I. Test Questions Analysis Report

1. From **Analysis** pull-down menu, select **Test Question Analysis** option.

2. Click **Test Questions Analysis** to generate report.

6 Quit the report Preview and go back to main display menu.

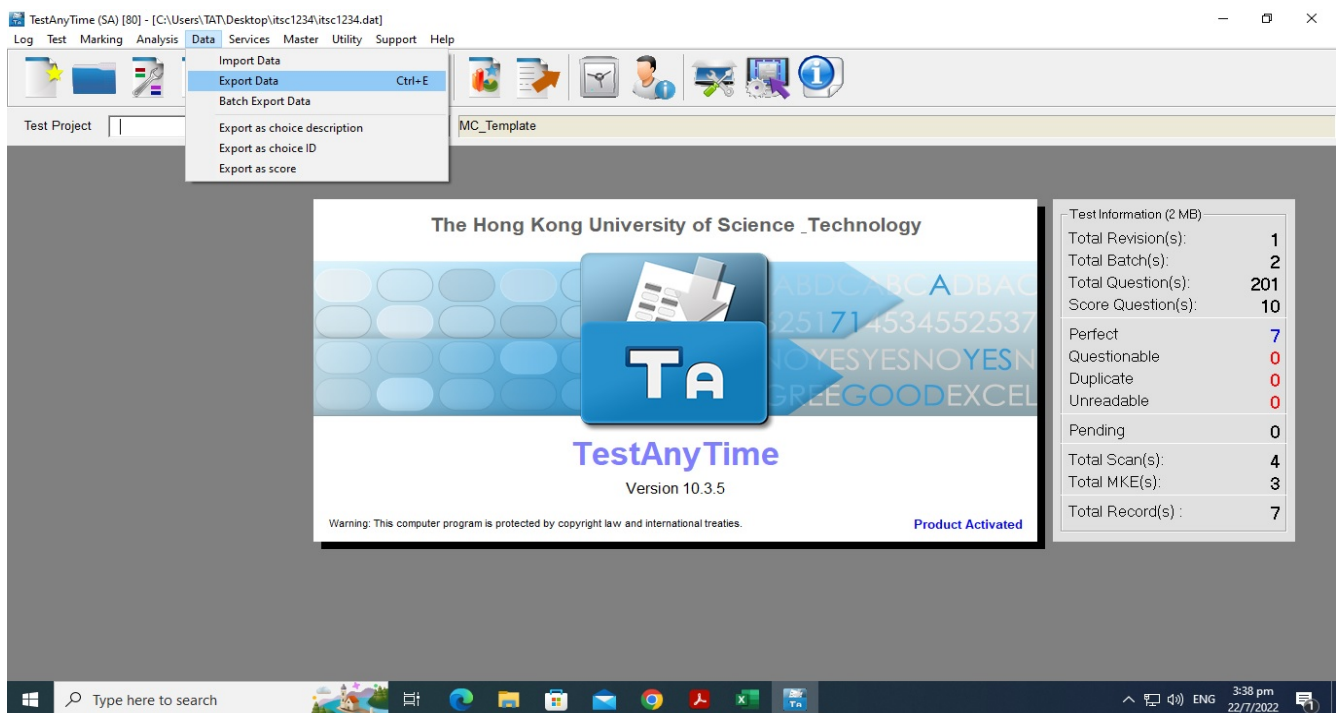

J. Export Data

After scanning the test forms, you may export the data to various file formats for filing purpose or for further analysis. Available file formats are as follow:

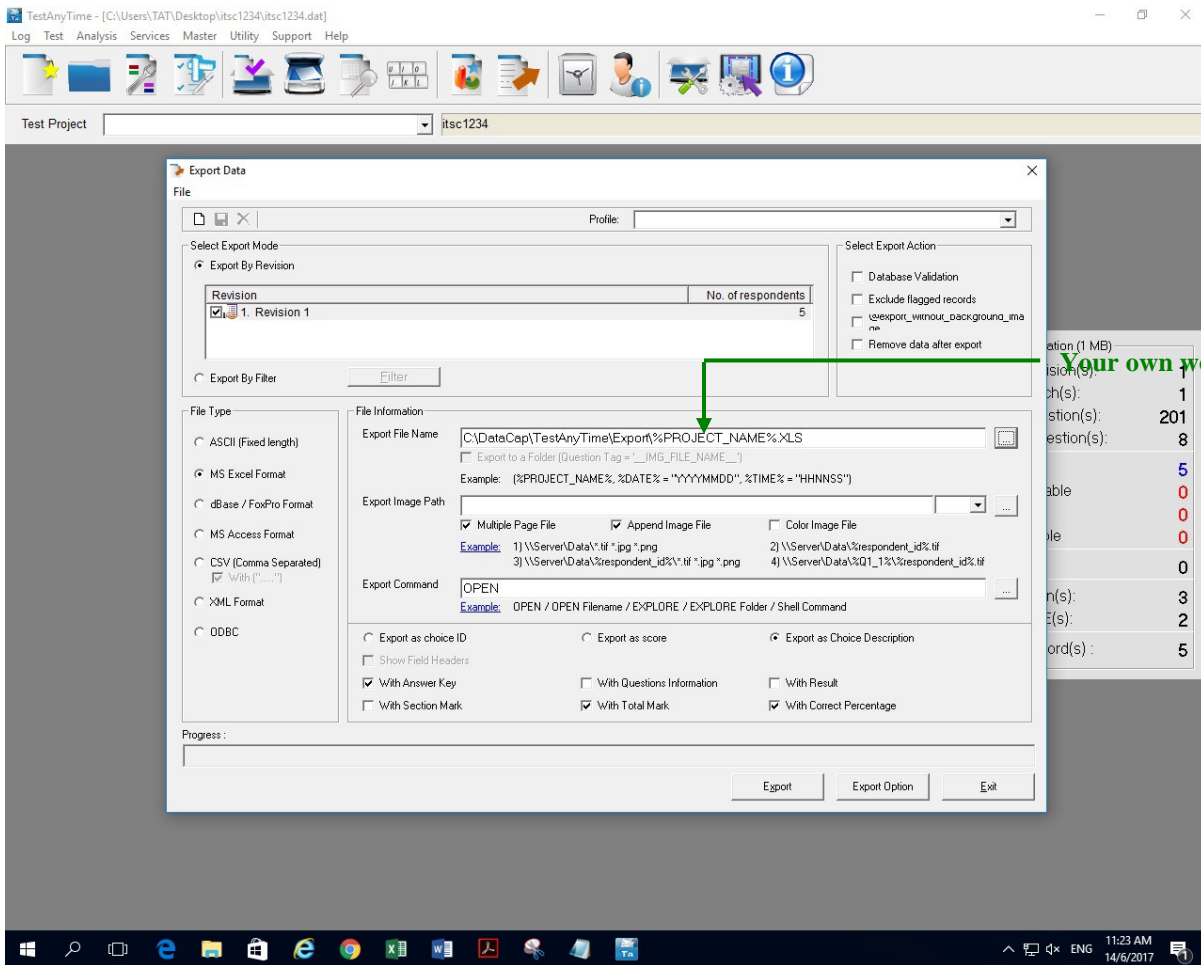

- ASCII (Fix Length) format
- dBase / FoxPro format
- MS Excel format
- MS Access format
- CSV (Comma Separated)
- XML Format

To export data:

1. From **Data** pull-down menu, select and click **Export Data** option.

2. At the Export Data dialog:

Your own work folder.

- Under **Export By Revision** option, tick check box for Revision 1.
- At **File Type**, select appropriate file format that you want to export to. Eg. MS Excel Format
- Select Export As option.

Export as Choice ID: Exported data contains students' answer to each question. Data will be exported as 1, 2, 3, 4 and 5, representing A, B, C, D and E respectively.

Export as Choice Description: Exported data contains students' answer to each question. Data will be exported as A, B, C, D and E .

Export as Score: Exported data contains students' score for each question. (1 represents correctly answered)

Selective checkbox options: With Answer Key, With Total Mark, With Correct Percentage

- d. At the **Export File Name** area, browse and save the file in your working directory.
- e. Click Open and then Click Export
- f. Quit the Excel file and exit to Main Menu

Examples on the layout of the exported data

Note : In order to ensure the PC functions properly and effectively, ITSC will perform the PC house-keeping periodically without further notice. Users are **STRONGLY** recommended to either save the scanned data in storage devices like flash drives or external HDD, or send the files to their own accounts via email. You may also save your project file (XXXX.dat) for future reference

K. Question with Multiple Answers (OR Condition)

1. Open Template and create your own project/working directory same as stated in Section D.
2. Scan Answer Key (same as Section E).
3. Double click for questions with Multiple answer and give it one answer from A-E. Click Save. Click OK to go back to main menu.

L. Question with Multiple Answers (AND Condition)

Remember to define Zone Image and Test Editor before scanning Answer Key

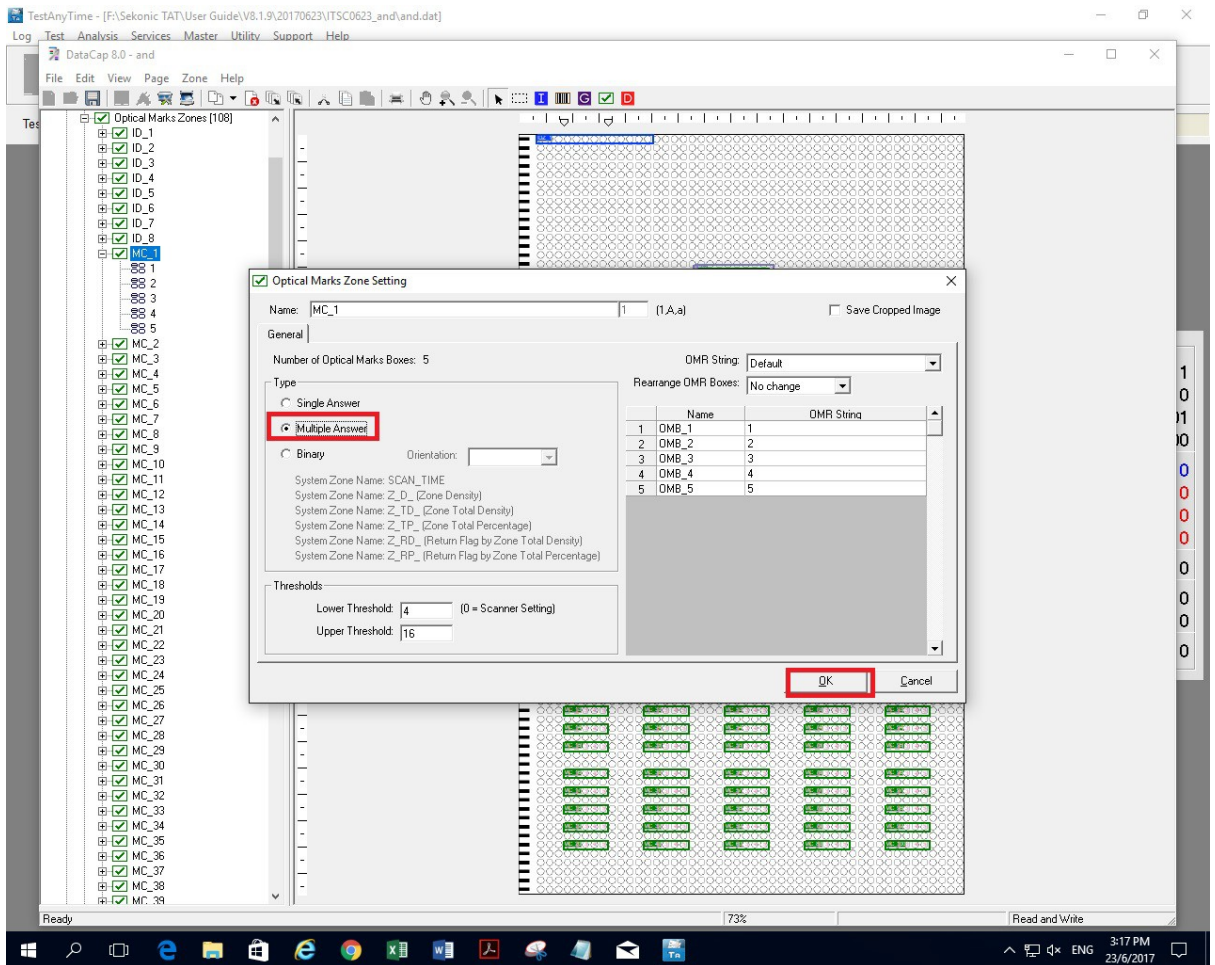

1. Open Template and create your own project/working directory same as stated in Section D.
2. Configure Zone Image (define question with multiple answers)
 - From Test pull-down menu, select and click Zone Editor

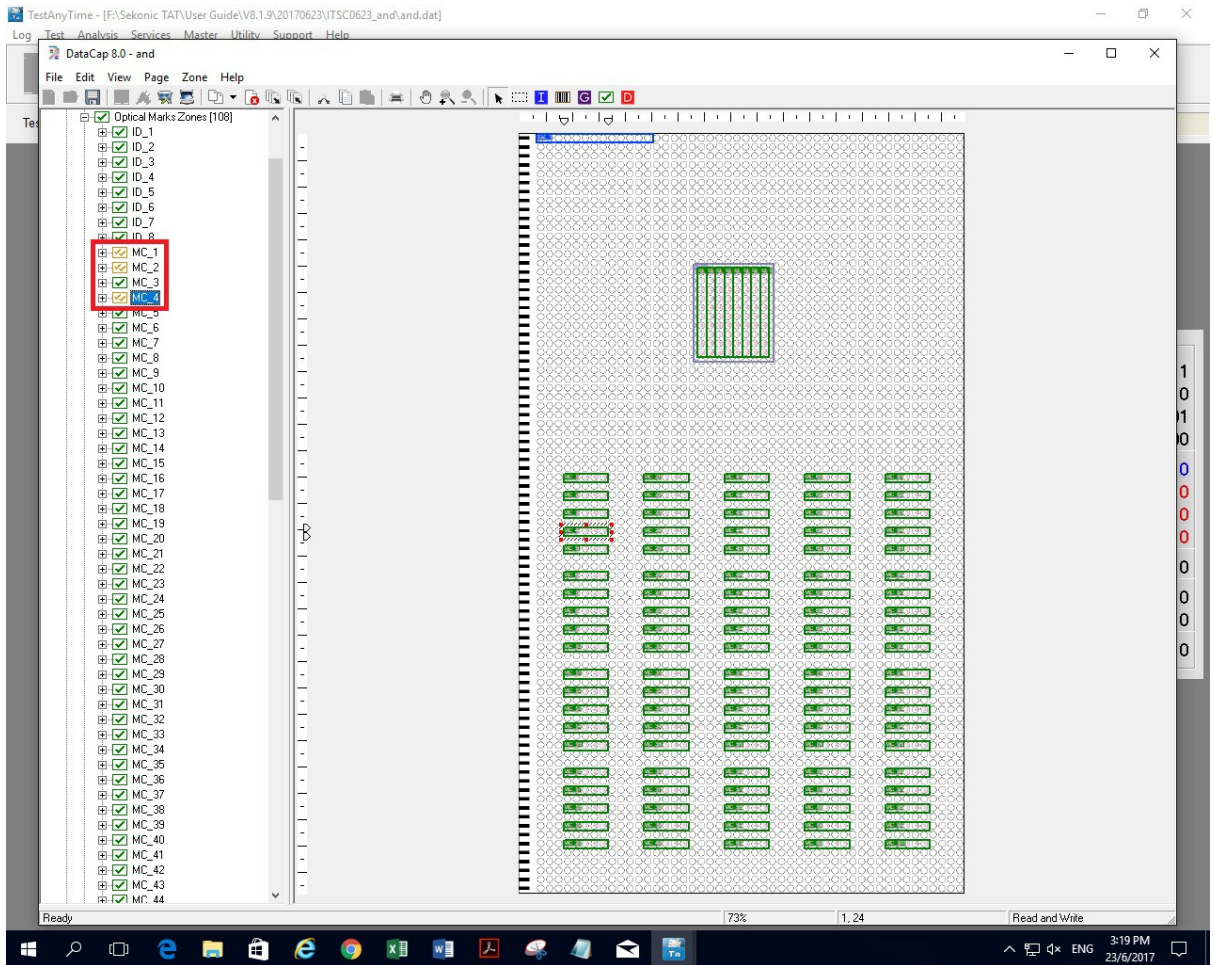

-Click “+” sign to expand Optical Marks Zone

- Right click the question you want to change (eg. MC_1). Click Setting.
- Change to multiple Answer and click OK.

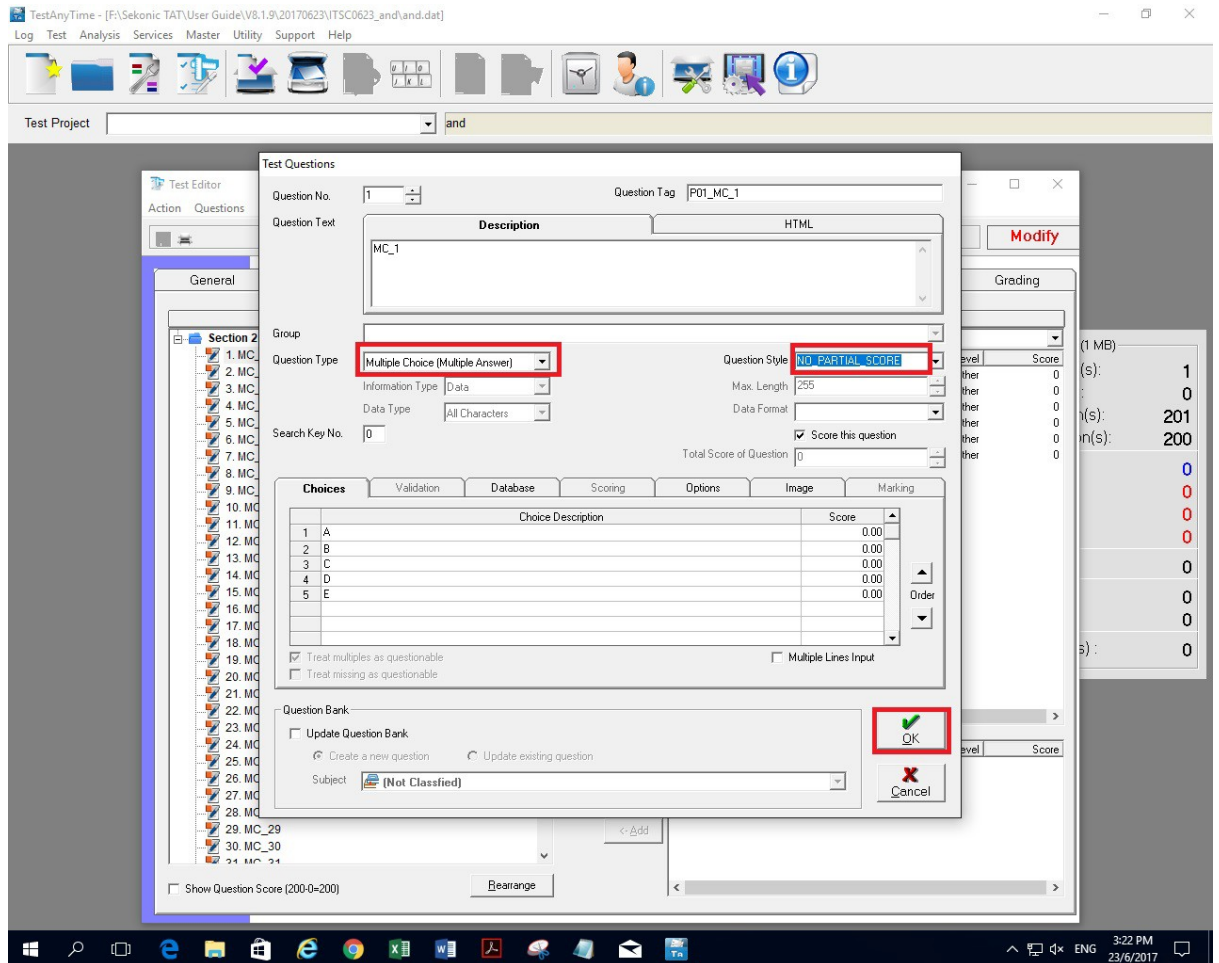

- Do same settings to other questions.
- Checked and confirmed that questions are marked with double ticks.

- Quit application and click Yes to save it
- Click NO when ask to rebuild question.

- Configure Test Editor
 - From Test pull-down menu, select and click Test editor
 - Select Question Tab
 - Click “+” sign to expand section 2
 - Double click on question with multiple answers.
 - Under Question Type: select Multiple Choice (Multiple Answer)
 - Under Question Style: change to NO-PARTIAL-SCORE
 - Click OK.

- Do this for other questions.
- After finished all the questions, Save it by clicking the save icon.
- Click OK. Quit Test Editor and go back to the main menu.

4. Scan Answer Key (Section E)

The screenshot shows the 'Scan Answer Key' dialog box in the TestAnyTime software. The dialog contains a table of scanned answer keys and a 'Save' button highlighted with a red box.
